RELEVANT EXPERIENCE

Solo Venture - Whiz Voice Android Assistant

April 2025 to present

- Built a screen agent app to control maps, music, to do list, draft messages, etc. hands-free.
- Developed a test framework for accessibility apps that Android's native tools can't test.
- Created a self-patching pipeline that auto-applies & verifies fixes on an emulator in GitHub Actions.

Senior Software Engineer at Pinterest - Cloud Architecture Team

January 2022 to June 2024

- Go-to expert on server config across 30 teams: set road maps, managed contractors, and worked with teams to implement best practices, freeing 10% from maintaining nonstandard configs.
- Reduced major outages by 50% through atomized server configs, rearchitecting Puppet run to remove external deps, automatic serverspec and instance launch testing, and per-cluster alerting.
- Upgraded OS on 150K servers via tooling, tech guidance, & hands-on support for company-wide security compliance. Prototyped automated upgrades, work presented at SREcon19 Asia.

Site Reliability Engineer at Pinterest - Core SRE Team

July 2016 to December 2021

- Contributed to company-wide Dockerization of microservices towards centralized upgrades and infra savings from container orchestration. Presented at SREcon (Containerization War Stories).
- Contributed to a Python monorepo that cut new-service setup from days to 1 hour by standardizing Docker build and deploy; 35+ microservices migrated.
- Scaled on-call by training 10 engineers and updating 100+ runbooks and other docs over the years to sustain uptime across 100s of microservices. Evangelized reliability best practices across Eng.

Site Reliability Engineer Intern at Google - Persistent Disk team

May 2015 - August 2015

- Implemented compaction failure detection for storage segments, to give on-callers 2 weeks notice.

LEADERSHIP

Co-President at the League of Women Voters of San Francisco

July 2025 - Present

- Led 3 committee chairs and ~30 volunteers across Voter Services, Membership, & Technology.
- Integrated PayPal, Salesforce, & Mailchimp, replacing month-long manual data sync.
- Built a volunteer coordinating team, growing the active base to 46 via outreach to 200+ orgs.

HARDWARE

Manufacturing Basic CAD, testing, prototyping, supplier management for consumer aquaponics.
Writing Guest edited for Scope of Work, a manufacturing-related newsletter
